WAGBORN'S GUIDE TO TRAVEL, 50c y

BY-LAW No. 229, OF 1896.

WHEREAS, by "The Municipal Ordinance," being ordinance No. 8, of 1894, the Northwest Territories, the councils of municipalities are empowered to pass by-laws for appointing poundkeepers and regulating their duties, remuneration fees and charges, and the security to be given by them for the performance of such duties, and for providing pounds, and for restraining and regulating the running at large or trespassing of animals and providing for impounding them, and causing them to be sold in case they are not claimed within a reasonable time, or in case the damages, fees or expenses are not paid, and for the appraisal of damages, and for determining the compensation to be allowed for service rendered in carrying out the provisions of any by-law with respect to animals impounded or distrained and detained in possession of the distrainer.

THEREFORE be it enacted a by-law of the Municipality of South Qu'Appelle, and it is hereby enacted as follows:

1. In the construction of this by-law the word "animal" shall mean any horse, mule, jack, cattle, sheep, goat, pig or domesticated fowl.

2. No animal, after the passing of this by-law, shall be permitted to run at large within the limits of said municipality between the fifteenth day of May and the fifteenth day of November, inclusive.

3. The owner or occupier of any lands within the said municipality may, between the fifteenth day of May and the fifteenth day of November, inclusive, in each year distrain all animals doing damage upon his cultivated lands or stacks of grain or hay.

4. Such distress shall be made at any time before such animals doing damage as aforesaid escape from said lands or while followed and kept in sight by the person sustaining such damage, or by any person being on the lands at the time such damage was done and without regard to the sufficiency of the fence upon such lands.

5. When any such distress is made the distrainer may keep and properly feed such animals in some secure place, other than a public pound, until his damages are appraised, as hereinafter provided for, or may drive the same to the nearest public pound.

6. If such animals are impounded in a public pound before appraisal of damages, the distrainer shall, at the time of such impounding, notify the poundkeeper to whom such animals are delivered what damages, if any, are claimed.

7. As soon as practicable after such distress the distrainer shall notify the owner of the animal or animals so distrained (if known to the distrainer) of such distress, the number and description of animals distrained and the amount of damages claimed, and if such owner does not within twelve (12) hours after receiving such notice pay the damages claimed by the distrainer, or if the owner of such animals is unknown to the distrainer, the latter shall within forty-eight (48) hours after such distress (unless the same is made on a Sunday, in which case he shall have until the next business day) cause an appraiser to appraise the damages.

8. The appraiser shall be entitled for appraisal to the fees set forth in the schedule hereon as appraisers' fees, and he shall immediately upon receipt of such fees, and upon payment of his fees, which payment shall be made in the first instance by the distrainer, but may in the discretion of the appraiser be allowed to either party, proceed to the place where such damage is alleged to have been done and shall view the same, and he may take the evidence of any person or persons necessary to enable him to ascertain the extent of such damage, and for this purpose the appraisers hereinafter appointed and their successors in office, are hereby empowered to administer an oath to every such witness.

9. The appraiser shall ascertain and certify under his hand the amount of such damage, and shall also, in such certificate, specify the amount of his fees, with particulars as to how the same are made up and whether or not such fees are to be allowed to the distrainer, and shall deliver such certificate to the distrainer.

10. The distrainer, unless the amount of such damages and costs as set forth in the appraiser's certificate is paid within the twenty-four hours after such appraisal, shall cause the animals so distrained to be put in the nearest public pound, and shall at the same time deliver to the poundkeeper to whom the said animals are delivered, the appraiser's certificate; or, if such animals have already been impounded, shall immediately upon receipt of such certificate deliver the same to such poundkeeper.

11. The animals so impounded shall remain in such pound for the period of ten days, unless the certified damages and all other fees, cost and charges allowed by this by-law are sooner paid.

12. At the expiration of the period mentioned in the preceding section, the poundkeeper with whom such animals have been impounded shall, unless said period expires on a Sunday, in which case on the Monday following, take and deliver said animals, or cause the same to be taken and delivered to the poundkeeper of pound No. (1), and the same shall be received by the keeper of said pound, and the poundkeeper so delivering said animals shall be entitled therefore to the fees allowed in the schedule of fees hereto for so doing.

13. The keeper of pound No. (1) shall, at two o'clock in the afternoon of the Saturday following the delivery to him of such animals, sell, or cause to be sold, by public auction, so many of said animals as may be necessary to pay all damages and charges against the same.

14. The keeper of pound No. (1) shall, out of the proceeds of such sale, pay the legal charges of the poundkeeper by whom such animals have been delivered to him, and shall deduct his own fees and afterwards pay to the distrainer the damages and fees awarded to him by the appraiser and shall take receipts therefor.

15. The balance of the proceeds of such sale shall be, immediately after the payments mentioned in the preceding section hereof, paid in to the Treasurer of the municipality, and said poundkeeper shall, at the same time, make a return to the said Treasurer showing all such payments and deductions, giving particulars as to how the same are made up, an accurate description of the animals so sold, the name of the purchaser and the price for which each animal was sold, and shall attach thereto, as part of his said return, the appraiser's certificate and the receipts for payments made by him as hereinafter provided for.

16. If, within one year from the date of such sale, the owner of such animals shall make application for such balance and file with the Treasurer a statutory declaration that he is the owner of the animal or animals so sold, the said balance shall thereupon forthwith be paid out to him by such Treasurer, but if no such application be made, such balance shall, at the expiration of said period, be paid in to the general fund of the municipality.

17. The owner of any animal sold at any pound sale may, within ninety days from the date of such sale, redeem such animal from the

purchaser of said sale by paying to him the purchase price thereof together with interest thereon at the rate of ten per centum per annum from the date of such sale, but after the expiration of the said period of ninety days, the title of such purchaser shall become absolute.

18. No bull or stallion of one year old or upwards, shall be permitted to run at large within the limits of said municipality at any time, and any person who finds any such bull or stallion running at large may capture and impound the same whether it shall be doing damage or not, and the captor of such bull or stallion shall be entitled to the sum of \$5.00 for each such bull or stallion so impounded if the same shall not have been doing damage, or to any damages which be allowed or appraised under the provisions of this by-law, and the like proceedings shall be had and taken in respect to such bull or stallion as herein provides for animals distrained doing damage.

19. Each and every poundkeeper appointed by this by-law, and their successors in office, shall furnish bonds to the municipality in the sum of \$200.00 for the due performance of his duties as poundkeeper.

20. It shall be the duty of each poundkeeper to receive all animals delivered to him to be impounded under the provisions of this by-law, and he shall provide a suitable pound and shall keep and properly feed and care for such animals therein. He shall, also, within twenty-four (24) hours after receipt by him of such animals, post up at his pound and at three of the most conspicuous places in the pound district wherein his pound is situate, a notice giving a full and accurate description of each animal impounded, and the place where and time when such animals are to be sold, and shall also deliver a copy of such notice to the clerk of the municipality, and said clerk shall thereupon post up said notice in his office.

21. The owner of such animals or any other person or persons who unlawfully takes such animals after being distrained out of the possession or custody of the person making such distress, or of the poundkeeper or any other person or persons in whose custody or possession the same shall lawfully be, shall be liable, on summary conviction before a justice of the peace, to a fine not exceeding \$40.00, and to be ordered to pay double the amount of damages certified to by the appraiser to the person to whom the same may be or have been awarded by such appraiser, together with costs of prosecution, and in default of payment thereof, the same may be levied by distress and sale of the goods of the person so convicted, and in default of payment or distress to imprisonment to any term not exceeding thirty days.

22. The following are the pounds and pound districts established and the poundkeepers appointed by this by-law:

No. 1—Within the limits of the Town of Qu'Appelle, as set forth in Section 2, of By-law 230, William Miller, keeper.

LONG DISTANCE ELECTRIC POWER.

Power from Niagara Falls to be Trans-
mitted to New York City.

Power from the great dynamo of the
Niagara Power company will be trans-
mitted into New York city over 60 miles
of wire on May 1st. The wire, which is
transmission will be furnished by the
Western Union Telegraph Co. on one of
its heaviest cables. The longest distance
that electric power has ever been carried
is 110 miles, and that in Europe. The
distance that will be covered by this
new system can be conveyed almost any
distance. It will be the first practical
test of the system and its promoters
to fear no failure. As President Frank
W. Hawley, of the company has ex-
tended to Governor Morton an invitation
to participate in the opening of the national
electrical exposition to be held in New
York on May 5th. The particular part
to be performed by the governor will be
to turn on the current of electricity
which will be furnished from Niagara.
This will be done by an electrical button
and the current will turn a model of the
Niagara company's plant in New York,
and also the cable canal system of trans-
mission. The Bell Telephone company will
have a telephone system transmitting
the roar of the falls so as to make the
thing realistic.

Daylight Robbery by a Woman.

Detective Hutt has made an important
arrest at Evansville, Ind., the other after-
noon. A man and a woman, giving the
names of Mr. and Mrs. John Bayne, ac-
companied by an 18 months-old baby
arrived at that city and took rooms at
the Randall. They were arrested and the
woman confessed that she had entered
several homes. At Mrs. Pommerehne's
she had secured two diamond rings val-
ued at \$2,000 and \$10 in cash. This is the
only place where she secured any booty,
although she had visited half a dozen
other places. She enters boldly, and if
seen by any of the inmates she makes
her apologies, gives some excuse for being
there and takes her departure. She had
a list of over 25 addresses, which she ad-
mitted she had visited or was going to
visit. The man stayed at the hotel and
cares for the baby while the woman does
the work. They claim Rochester, N. Y.,
as their home.

HE SHOT THE SERGEANT.

A Degraded Buffalo Police Officer
Reports to Murder.

At Buffalo the other morning the trial
of Ex Police Captain Michael Sammons
for the murder of Sgt. Thomas Cantlan,
was called in the criminal term of the
supreme court. Defendant was formerly
captain of the third precinct, but was
deposed when there came a change in
the political administration of the police
department. When, however, the Republi-
cans again came in power he made several
attempts to recover his captaincy. Instead,
he was still further degraded, being trans-
ferred to the seventh precinct. On the
night of the murder Sammons was seen
by the sergeant to go into a malt house
and remain there for half an hour. When
he reappeared Sgt. Cantlan accosted him
and ordered him to the police station. The
sergeant followed him tactfully for a
few steps, when he asked to be let off,
seeing his offence meant his place on the
force. Cantlan replied he must do his
duty, whereupon Sammons drew his re-
volver and shot Cantlan in the stomach.
Putting the gun back in his pocket, he
sat there unconcernedly smoking. When
word was brought of the assault upon
Cantlan, the victim was able to give an
ante-mortem statement to identify his
assailant, otherwise Sammons would
never have been suspected. Since his
incarceration Sammons has made no
statement other than a denial of the deed.

Back Directors on Trial.

The grand jury recently began the con-
sideration of the indictment against the
directors of the Commercial Bank at
St. John, N.B. The bill of indictment
contains thirty long by counts, covering
twenty-seven pages of type-written mat-
ter, and is framed upon the lines of most
of the important cases of similar charac-
ter in England for the past twenty years.
A similar indictment against the Union
Bank directors is ready for the grand
jury when the witnesses are present. Ex-
amination of the evidence shows that briefly,
it accuses the directors of presenting
false reports of the condition of the bank,
thereby misleading the public, and in-
ducing people to lose their money. Great
excitement prevails. The cases have
been shelved for the last twelve months,
and it is now believed that the grand
jury will find no bill, necessitating the
discharge of the directors and the col-
lapse of the trials. The judges of the
supreme court were opposed to trying the
cases themselves, and they wanted an
English judge, who would guarantee
absolute impartiality, but the govern-
ment refused to agree to this.

A Peaceful Message From the Pope.

The London Chronicle publishes a
dispatch from Rome which gives an im-
portant letter that Cardinal Rampolla
has addressed to the editor of that paper
under date of April 9. The translation
of the letter is as follows:

"Sir, among the most precious gifts the
Divine Redeemer bestowed upon the
world was that of peace, and no better
desire can exist than that peace should
reign upon the earth. Justly, therefore,
the Pope, as vicar of Christ, the Prince
of Peace, desires to contribute in every
effort toward the maintenance of the
peace and union of hearts among the
nations. On this account, His Holiness
has been informed by me of the earnestness
with which you are promoting the insti-
tution of a permanent tribunal for the
purpose of deciding international con-
troversies and redressing the people from
the perils of war, cannot but show his
satisfaction, and express the wish that
God will happily crown these praiseworthy
efforts with success."

Hawaii Cable Scheme.

A Hawaiian dispatch says: The
Hawaiian cable question was considered
by the house committee on commerce
recently. It was decided to dispose
of the bill on the question of the cable
bill to the house in about a week.
In the meantime the hearing may be
continued, and probably some of the
government engineers will be called upon
to give their views. Gen. Wager Bayne,
who represents the Hawaiian cable com-
pany of New Jersey, of which Col. Spaulding,
of the Hawaiian islands is president,
made a statement to the committee in
the interest of the company. The resolu-
tion was adopted by a vote of ten to
four, expressing the sense of the com-
mittee to be that the government should
aid by subsidy the construction of a
Pacific cable. Neither of the two rival
companies which are competing for gov-
ernment patronage are named in the
resolution and no terms are suggested.

To Look After the Seals.

Edward Smith cables to the New York
World from London: It seems like look-
ing for the stable door after the horse
is stolen, if the stories of the already al-
most total extermination of the Behring sea
seals are true, but I am privately in-
formed that Lord Salisbury has at last
commented to dispatch three expeditions
to hunt the seals. The U.S. govern-
ment has urged that total extinction of
the seal fisheries on the Prudloff and
Commander Islands is imminent, owing
to the indiscriminate slaughter of mil-
lions of seals. According to my informant,
Mr. Macdon, a leading Canadian authori-
ty on the subject, has already been ap-
pointed, but the other two expeditions
are not yet decided upon. The plan is
that the expedition will be sent to the
islands, where the seals are to be hunted
and the seals are to be taken to the
United States. The expedition will be
sent to the islands, where the seals are
to be hunted and the seals are to be
taken to the United States.

She Boared His Bear.

A few days ago Rev. A. D. Pickens,
a Baptist divine in charge of a church at
Danbury, in the Sequatchie Valley, Tenn.,
went to Mr. Airy, about three miles from
Danbury, to preach. He was invited by
J. C. Grimm, a respectable young farmer,
and spent the night at his house. On the
following morning the young husband
stepped out to the barn to hitch up a rig
and take the minister to the depot. In
his absence the preacher tried to take
some liberties with Mrs. Grimm, and
received a severe boxing of the ears for
his pains. Grimm found out about the
affair later and lashed the preacher with
a strap, but soon cooled down. The
affair has set the community all agog.

Japan Preparing for War.

The troubles of which there have long
been rumors are at last maturing in Corea.
According to a telegram from Vladivostok
to Novoe Vremya, the last news from
Seoul says the Koreans are deter-
mined to exterminate the Japanese,
holding them responsible for the murder
of the queen. Bands of men have been
organized to threaten the Japanese
factories, Japan has sent warships to
Hankow and others points on the coast.
The Novosti says Japan should know
Korea's feeling in regard to Corea, that
while she does not wish to be there
herself she will not permit any other
power to be predominant in the heretofore
kingdom. Great military activity prevails
in Japan. The army is being increased
and instead of consisting of six divisions

it will in future be composed of 12,
being an increase of 60,000. The number
of regiments has been increased from 28
to 53.

AT LAST DISCOVERED.

The Secret of the Egyptian Process of
Mummification is Now Known.

Medical men and scientists are greatly
interested in the work of Carl Mathias,
of Toledo, in mummifying the remains
of Albe C. Weeks, of Warren, N. H., who
died suddenly on a train near that city
a few weeks ago. Mr. Mathias claims to
have discovered the original Egyptian
process of mummification and on con-
sult of friends and relations of Mr. Weeks
has prepared his remains in this manner.
The skin is hard and brown as tanned
leather. Says Mr. Mathias: "The ex-
periment has proved a success and the
rays of the sun or exposure to the fire-
test of the elements will not affect the
body."

A Sensational Arrest.

A sensational arrest has been made at
Reading, Eng., of a woman named Dier,
and her son-in-law, Palmer, charged with
murdering a number of infants. The
bodies of six children, apparently strang-
led to death, have been recovered from the
Thames, where they had been thrown,
weighted down with bricks, etc. It is
added that letters were found at the
woman's house, showing that many of the
parents with whom she and her supposed
accomplices had dealings were aware of
the fate intended for their infants con-
signed to Mrs. Dier's care. These letters, it
appears, were from all persons in all
classes of society, and according to the
London police, a large number of the
bodies found in the Thames during the
last year, may be traced to Mrs. Dier
and her son-in-law. The coroners have
been puzzled at the recovery of so many
bodies from the Thames between Wapping
and Battersea, some of them being
strangled up in the stomach of a man
or old lady. But up to the present time
the authors of these many mysterious
murders could not be traced.

Cuban Reverses.

Advices from Havana say that the
force of Antonio Maceo are reported to
be defeated and suffering from the
fatigue and privations they have en-
dured. Maceo, it is said, promised them
rich booty in the province of Pinar del
Rio, including the capital, the city of
Pinar del Rio, which they were to cap-
ture. Instead, it is asserted, the in-
surgents have been compelled to take refuge
in the mountains. General Canales
has surprised the insurgents under Ban-
dera at the moment when they were
upon the point of attacking Cayahabo.
He routed the enemy, and the latter were
ordered to the effect of the nation of
the troops with the loss of 37 killed.
The troops had been taken wounded.
The insurgents, at midnight, attacked Can-
dalaria and after an hour's firing retreat-
ed. The insurgents have burned the
village of Four Camines, near Havana.

A Terrible Explosion.

One of the main buildings of the Chi-
cago Fireworks company at Grosspoint,
11 miles north of Chicago, blew up the
other morning, resulting in the death of
two employees, and the serious injury of
six more. The dead are: Nicholas Bore,
and Annie Bore, his sister. The explosion
is supposed to have been caused by
the failure of a boiler in the machinery
used in the manufacture of fireworks.
The first discharge blew out sides of the building,
letting the roof fall in. A moment later
there was another explosion, which
shattered the roof, and yet the remains
of Annie Bore have not been found. It
is believed she was blown to pieces.
Nicholas Bore, her brother, was horribly
mangled. Several others are badly burn-
ed and lacerated, and it is feared will die.
Eight persons were taken to the hospi-
tal at the time, but one of whom escaped
injury.

American Charged With Conspiracy.

Luke Usher, president of the National
Bank of Potsdam, Fred L. Duke, pro-
prietor of the Potsdam Hotel, and Henry
Legg, all of Potsdam, N. Y., were ar-
rested by U.S. Marshall McGuffey, on a
criminal charge, they having been in-
dicted in the U.S. court for conspiracy.
They were admitted to bail in \$500 each.
They are charged with breach of the alien
labor law. Usher owns large lumber
interests, and it is alleged sent Luke
and Legg to Ottawa, who hired French-
men to work in his Adirondack lumber
camps. The charge is pressed by Con-
gress Agent Felt, who has presented the
testimony of many Canadian choppers.
The violation, as alleged, covers four or
five years, and hundreds of men have
been brought over. The men were in-
dicted at the close of the March term of
the U.S. court at Ottawa. They will be
tried at the May term in Rochester.

Adrift on Ice.

Three men named Sullivan, Barnes
and Bailey, while hunting seals on an
ice floe, drifted out to sea. That night
the mail steamer Virginia Lake while
running up the coast to St. John's, N.B.,
rescued Sullivan and Barnes. Bailey
however, was dead, as a result of the
cold. All three of the men were found
without a morsel of food in their houses,
being in need of food. When it was
discovered that they were drifting out
to sea, Sullivan and Barnes could
easily have saved themselves, but they
were too drunk to do so. They were
found by the steamer Virginia Lake.
Two other men named Hayward and Dal-
ton are still adrift. They have not yet
been found and it is likely they have
perished. When all the news is received
from along the coast it is probable that
it will be discovered that others have met a
similar fate.

Plotting Against the Car.

A dispatch from St. Petersburg says
that the approaching coronation has
excited a plot to assassinate the czar.
to assassinate the czar. A plot to murder
him at the great fair of Nijni Novgorod
has been discovered. In consequence the
czar has given up his plan of attending
the fair. A general round up of all
persons suspected of being connected with
the plot has been ordered. Moscow. No
fewer than 5,000 men and women have been
arrested and will be kept in prison
until after the coronation. Hundreds of
students of the universities have been
arrested on the alternative of going home
or going to prison for the same period.
The governors of all provinces are carry-
ing out the imperial command to the letter.

Ballington Booth's Charge Denied.

Commander Booth Tucker, of the Sal-
vation Army, denies the latest charges of
Ballington Booth against the latter's
father. He denies that General Booth
objected to the prominence given the
American flag by the Salvationists and
that he declared the time had come to
stop carrying it at the head of processions.
Also that General Booth declared it his
intention to divide the United States
into three parts by north and south lines
and annex them, so far as the work of
the Salvation Army is concerned, to
Canada.

THE WORLD'S DEBT TO CONGRE- TIONALISM.

This Church Gave to the World a Teacher
—Hear Also What the Rev. S. Nicholls,
a Prominent Toronto Congregational
Minister, Has to Say on the Important
Subject.

Henry Ward Beecher believed man's
religious faith was colored largely by the
condition of his health. He had said
from the pulpit that no man could hold
right views on religion when his stomach
was out of order. It is quite certain that
no preacher can preach with effect if his
head is stuffed up with catarrh. It is not
surprising, therefore, that we find the
leading clergymen of Canada speaking so
highly of Dr. Agnew's Catarrhal Powder,
for cold in the head or catarrh. They
know the necessity better than anyone
else of being relieved of this trouble.
Rev. S. Nicholls, of Olivet Congregational
Church, Toronto, is one who has used
this medicine, and over his own signa-
ture has borne testimony to its benefi-
cial effect.

One short puff of the breath through
the Blower, supplied with each bottle of
Dr. Agnew's Catarrhal Powder, diffuses
this powder over the surface of the nasal
passages. Painless and delightful to use,
it relieves in ten minutes, and perma-
nently cures, catarrh, hay fever, colds,
headache, sore throat, tonsillitis and deaf-
ness. Sixty cents. Simple with blower
sent for 10 cents in stamps or silver. S.
G. Detochon, 11 Church street Toronto.

its flight. Belle—Don't you think you'd
better practice on a clock first, my dear.

DOES ITS WORK IN SIX HOURS.

A Medicine that Will Relieve Distressing
Kidney and Bladder Disease in Six
Hours Deserves Your Attention.

Those who suffer from kidney troubles
suffer acutely. Where some kinds of
sickness can be borne with fortitude, it is
no easy matter to exercise this virtue
when one is suffering from kidney
troubles. Hence any certain person
when a medicine is being used that
doctors say will eventually effect a cure.
But who wants to continue an agonizing
course of treatment when a medicine is
available that will cure in six hours?
The remedy is Dr. Williams' Pink Pills
for the Kidney, and that is so
speedy as well as certain in its effect.
This new remedy has been thoroughly
tested by learned physicians, and stands
to-day ahead of any medicine used for
kidney disease. It does not pretend to
cure anything else, but it does cure kid-
ney disease.

Grimonbeak—"Do you know Packer-
ton, the 'crack'?" "Yes, I do." "Well, you
lived within gunshot of me?" "Well, you
must be frightfully bad shot." "Yorkere

Heart Disease of Five Years' Standing
Absolutely Cured by Dr. Agnew's Cure
For the Heart—The Great Life-Saving
Remedy gives Relief in Thirty Min-
utes.

Thomas Petry, Esq., Aylmer, Que.: "I
have been troubled for about five years
with severe heart complaint. At times
the pain was so severe that I was un-
able to attend to business. The slightest
exertion proved very fatiguing necessitating
taking rest. I tried Dr. Agnew's Cure
for the Heart, and obtained immediate
relief. I have now taken four bottles
of the remedy, and am entirely free from
every symptom of heart disease. I hope
this statement may induce others trou-
bled as I was, to give this most valuable
remedy a trial."

"It is said there is little difference
between genius and insanity." "Well,
there's one important difference—the
genius protects himself from the lunatics."

He thinks that he deserves.

Relief in Six Hours.

Distressing Kidney and Bladder Dis-
eases relieved in six hours by the
South American Kidney Cure.

This new medicine is a great surprise
inasmuch as it is so quick in its ac-
tion, and so prompt in relieving pain
in the bladder, kidneys, back and every
part of the urinary passages in male or
female. It relieves retention of water
and pain in passing it almost imme-
diately. If you want quick relief and cure
this is your remedy.

DOCTORS WERE WRONG.

THEY SAID MR. REUBEN PETCH WAS
PERMANENTLY DISABLED.

They Apparently Had Good Grounds for
Saying So, and on the Strength of It
He was Paid a \$1,500 Disability In-
surance—Another Case in Which Dr. Wil-
liams' Pink Pills Have Brought Health
After All Other Means Failed.

From the Montreal Monitor.

Mr. Reuben Petch is a resident of
Gatineau who has been known to the
editor of the Monitor for a considerable
number of years. For several years Mr.
Petch has been in bad health, and has
been an intense sufferer and was declar-
ed incurable by a number of physicians,
and was paid a disability insurance of
\$1,500. Later, to the astonishment of
those who had known that he was pro-
nounced incurable, Mr. Petch has been
brought back almost to his former health.
This restoration he attributes to the use
of Dr. Williams' Pink Pills, and knowing
that his story would interest the readers
of the Monitor, a reporter was sent to
interview him. The following is Mr.
Petch's narrative as given to the reporter:

"I had been sick for five years. I con-
sulted during that time no less than six
of the best physicians I could find, but
none seemed to help me so far as medi-
cine was concerned. My limbs and body
were puffed or bloated so I could not get
my clothes on. I had lost the use of my
limbs entirely. When I began taking
Dr. Williams' Pink Pills I could not dress
myself, and had not dressed myself for
two years previous. I could not even
open my mouth to receive any solid food.
